The following terms and conditions ("Terms and Conditions") apply to individuals and entities ("Customer(s)") purchasing and using Inmarsat leased space segment capacity services ("Services") offered by Stratos Wireless, Inc. ("Stratos"). Stratos agrees to provide the Services from time to time and Customer will take and pay for such Services as set forth in these Terms and Conditions. (Each of Stratos and Customer a "Party" and collectively the "Parties").

1. SERVICES

- (a) Stratos' obligation to provide the Services and Customer's obligation to buy the Services will be subject to the availability of leased capacity from Inmarsat Limited ("Inmarsat") provided that leased capacity that is available with a start date within thirty (30) days after the desired target start date requested by Customer. Stratos and Customer will cooperate to obtain capacity that meets the specifications the Customer's request, and will do so in accordance with the Inmarsat Policy Relating to Leases of Inmarsat Space Segment Capacity (which Stratos will provide at Customer's request). If lease capacity that meets the Customer's requested specifications is unavailable, the Parties will negotiate regarding the possibility of substituting alternative capacity. If the Parties are unable to agree on alternative capacity that is available from Inmarsat, these Terms and Conditions will terminate immediately, and the amount of any monies paid by Customer will be refunded pursuant to Article 5.
- (b) Stratos will provide to Customer the Services in accordance with the Lease Ordering Procedures in Attachment 1 of these Terms and Conditions and as requested by Customer in writing upon receipt from time to time, on Customer's purchase order ("PO") or a signed Quotation Form - Inmarsat High Speed Data Lease(s) ("Quotation Form").
- (c) The specific frequencies to be used for the Services will be assigned by Inmarsat. Customer acknowledges that Inmarsat may change the frequencies or other technical characteristics of the Services. In the event of such changes, Stratos will use reasonable commercial efforts to minimize any disruption to Customer caused by such changes.
- (d) Stratos will cooperate with the Customer to conduct pre-operational testing of the Services. Such testing will be carried out as authorized by Inmarsat and pursuant to Inmarsat procedures.
- (e) Customer will use the Services (including in pre-operational testing) in accordance with all requirements of these Terms and Conditions. Stratos will use commercially reasonable efforts to work with Customer and Inmarsat to assist Customer in meeting such requirements.
- (f) Except as otherwise authorized in writing by Stratos:

BEYOND THE HORIZON®

1a. INMARSAT-B LEASES: USE OF REGIONAL BEAMS

Post repositioning of Inmarsat satellite constellation, Inmarsat-B lease services for 98W, 25E and 143.5E will transition to regional beam service via the I4 satellites. Global beam lease service remains available on 142W and 109E. There are two categories of channels within the regional beam service: (1) Anchor Channels, and (2) General Access Channels.

- a. Anchor Channels. Anchor Channels are regional beam channels that are specifically reserved for Customer's use within specified regional beams. Each existing global beam channel will be converted to one Anchor Channel, and existing global beam leases will need to be distributed across the required regional beams.
- b. General Access Channels. Subject to the availability of satellite resources, Inmarsat may make additional leased channels available for use; these additional channels will be referred to as General Access Channels. These General Access Channels will provide limited roaming capabilities for Customer users who move outside of the relevant spot beam(s) in which the user's Anchor Channels are positioned. General Access Channels may be provided in one or more spot beams adjacent to the spot beam(s) in which an Anchor Channel has been provided. Access to General Access Channels is not guaranteed. General Access Channels are accessible to all users, including non-Stratos lease users, on a first-come, first-served basis. Neither Stratos nor Inmarsat shall have any liability arising in any way from Customer's inability to access a General Access Channel. In addition, use of an Anchor Channel is not possible when the user travels outside of the relevant spot beam; unavailability of General Access Channels in this case may result in a loss of service. In such cases, Customer will not be entitled to any outage credits under the terms of the Agreement.
- c. Conversion of General Access Channels to Anchor Channels. In the event that Customer makes unreasonably large use of a General Access Channel in any spot beam, Stratos will have the right at its option to convert such General Access Channel to an Anchor Channel; in this event one of Customer's existing Anchor Channels will be converted to a General Access Channel.
- d. Changes to Anchor Channel Distribution. Customer may request a move of channels from one spot beam or satellite to another spot beam or satellite to satisfy operational requirements. Any request for a modification to channel availability that requires a satellite configuration change is subject to satellite resource availability. A satellite configuration change would be required, for example, if Customer requests to move an Anchor Channel to a regional beam where there are no General Access Channels configured. As such, each request will have to be considered by Inmarsat to determine if a satellite configuration change is required. Upon acceptance by Inmarsat, such requests will be implemented within 5 working days if no satellite configuration change is required and if there is no subsequent change requested within these 5 working days. If a requested change requires a satellite configuration change, or there is a subsequent change request within the initial 5 working days, Inmarsat will attempt to implement the change within the 5 working days, but this is not guaranteed. Inmarsat will process requests for changes to Channel Distribution on a first-come, first-served basis.

2. EQUIPMENT AND FACILITIES USED BY STRATOS

- (a) Stratos will provide the Services using the earth station facilities specified on the Quotation Form or Customer's PO. Stratos may substitute other earth station facilities, provided that, Stratos is otherwise able to satisfy its obligations to Customer regarding the nature, charges for, and quality of the Services.
- (b) The equipment and facilities that Stratos uses to provide the Services are owned or operated by Stratos. Customer acknowledges that title to such equipment and facilities will remain with Stratos.

3. TERM

These Terms and Conditions will take effect on the Effective Date and expire upon conclusion of the term of the provision of the Services as requested in writing by Customer on the PO or Quotation Form, unless earlier terminated pursuant to Articles entitled "Services" or "Default and Termination".
- (b) Term of Services. The duration for each of the Services will be as specified on the Quotation Form or Customer's PO, as may be amended from time to time by the Parties.
- (c) Stratos advises Customer, without incurring any legal obligation as to extension, that maximum advance

notice will facilitate extension and that Inmarsat accords absolute priority to lease renewal orders placed six (6) months or more before expiration of the current lease term.

4. CUSTOMER PURCHASE ORDERS

In the event that Customer submits a PO, Customer understands that such PO will be treated as an administrative document only to add or change Services under these Terms and Conditions. Any terms and conditions on, in or attached to or a part of such PO will not add to, delete from or change any of provisions of these Terms and Conditions.

5. BILLING AND PAYMENT

- (a) Customer will pay Stratos the total service cost as specified on the Quotation Form or Customer's PO. Unless expressly stated otherwise, the quoted service cost is for space segment services only and assumes that Customer has arranged for its own ground segment between the selected earth station facilities and the termination destination. If Customer does utilize ground segment provided by Stratos, a separate charge will be assessed by Stratos to Customer in accordance with Stratos' general landline termination rates.
- (b) Stratos will invoice and Customer will pay Stratos for the Services in accordance with the payment terms set forth Quotation Form or Customer's PO.
- (c) Customer acknowledges its responsibility to provide and pay for all hardware and services required to connect Customer's hardware to the Services. If requested in writing by Customer, Stratos, acting as Customer's agent, will order the local exchange, interexchange, or bypass carrier services, and associated hardware, required to connect the Services to Customer's equipment, including the facilities set forth in the Quotation Form. Customer will be responsible for payment of Stratos invoices for all such services and hardware, which invoices will be based upon Stratos costs plus an administrative fee of twenty percent (20%). For those services ordered by Stratos, Stratos will act as Customer's agent in coordinating the troubleshooting and maintenance for such services with the carrier providing the facilities, at no charge to Customer.
- (d) In addition to the amounts specified in subparagraphs (b) and (c) of this Article 5, Stratos invoices will include all applicable federal, state, provincial, local and other taxes, not including taxes on the income of Stratos, and Customer will be responsible for payment of such taxes.
- (e) In the event that any tax, duty, impost, levy or the like charge becomes payable in any territory, either by deduction or otherwise, on or in respect of any amount to be paid by Company to Stratos, or which Company may be required to withhold in respect of any amount due to Stratos, such tax, duty, impost levy or like charge shall be for the account of Company and Company shall pay to Stratos such an amount as to yield to Stratos a net equal to the amount that but for such tax, levy, impost or charge would have been received by Stratos. Stratos will provide reasonable assistance to Company to minimize the amount of such withholdings or deductions, including providing any relevant certification of its status as a non-resident or a jurisdiction or of its entitlement to benefits under a treaty.
- (f) Stratos will provide a credit on Customer invoices for any amount refunded to Stratos by Inmarsat as a result of operation problems with or unavailability of the Services.
- (g) Customer must pay all Stratos invoices within thirty (30) days of the date of invoice. All payments must be remitted to Stratos in US Dollars to the account and payment addresses indicated on the billing invoice received by Customer from Stratos.
- (h) Amounts not paid within 30 days of invoice will be subject to an interest charge of the lesser of: (i) one and one-half percent (1.5%) per month or; (ii) the highest rate permitted by law. Customer will pay for any and all collection or litigation expenses, including reasonable attorneys' fees, incurred by Stratos in collecting any late payments or late payment fees.
- (i) Customer must pay all undisputed amounts when due. If any portion of the amount invoiced is subject to a bona fide dispute, by Customer, Customer must, within thirty (30) days of its receipt of the invoice containing such disputed amount, give notice to Stratos of the amount it disputes ("Disputed Amount") and include in such notice the specific details and reasons for disputing each item. If the Disputed Amount is resolved in favour of Stratos, Customer must pay the Disputed Amount together with interest as provided in this

subparagraph (h) of this Article 5 upon final determination of such dispute. Stratos will issue any applicable credits to Customer upon resolution of any disputes in favour of Customer. An invoice is deemed to be accepted if no written notice of a dispute is provided before the invoice due date.

6. OPERATING PROCEDURES AND CUSTOMER SERVICE

- (a) Customer will follow the procedures ("Procedures") established by the entities that supply services and equipment to Stratos ("Suppliers") and such Procedures may be provided to Customer upon reasonable request to Stratos. Customer acknowledges that the Procedures may be modified from time to time by Suppliers. Stratos will not be liable for Customer's use of the Services in a manner inconsistent with the Procedures provided by Suppliers.
- (b) Stratos operates an International Customer Care and Operations Center which is staffed twenty-four (24) hours per day, seven (7) days per week, which will provide Customer with operator assistance, operator intercept, mobile terminal commissioning, technical trouble shooting, and general customer assistance services. The Operations Center may be contacted at the following telephone numbers:

For International calls: +1-709-748-4226

7. ABUSE/FRAUDULENT USE OF SERVICES

Customer will not use the Services in an abusive or fraudulent manner, including, but not limited to the following:

- (a) accessing or attempting to access the Services by using an unauthorized device;
- (b) obtaining or attempting to obtain permission to use the Services by providing false or misleading information;

 - (i) material breach or violation of any provision of these Terms and Conditions by Customer;
 - (ii) failure of Customer to make any payments due;
 - (iii) discovery by Stratos that any material representation or warranty made by Customer in any document furnished by Customer to Stratos in connection with these Terms and Conditions is incorrect; or
 - (iv) commencement of any proceeding, whether voluntarily or involuntarily, relating to the Customer under any law relating to insolvency, bankruptcy or the protection of creditors' rights generally.

Notwithstanding the foregoing, Stratos may terminate Services without further notice to Customer within thirty (30) days of receipt of a Quotation Form or PO if Stratos is not satisfied with the Company's credit.

- (b) In the event of Customer's default, Stratos may, at Stratos' sole option and without in any way limiting any other rights and remedies it may have, suspend or terminate the Services without notice and without liability of Stratos. Upon such suspension or termination, Stratos will invoice Customer and Customer will pay Stratos in accordance with Article 5 for (i) all charges for Services used by Customer, at the prices as set forth in the Quotation Form; and (ii) all amounts charged to Stratos by Inmarsat with respect to the Services during any period of the Service Term during which service to Customer is suspended or terminated, plus an administrative charge of twenty percent (20%). Stratos will use reasonable commercial efforts to minimize the amount of such charges by Inmarsat, and the Parties agree that such administrative fee represents an estimate of actual loss to Stratos due to suspension or termination of Services and does not constitute a penalty. Customer will also pay Stratos all costs and expenses incurred by Stratos due to default by a Customer, including but not limited to legal costs and reasonable attorneys' fees.

- (c) Customer herein understands that the Services are pre-emptible with 100% termination liability. Customer may terminate these Terms and Conditions and/or Services hereunder upon written notice to Stratos prior to the end of the Term as defined in Article 3 of these Terms and Conditions. Upon such termination, Stratos will invoice Customer and Customer will pay Stratos a 100% termination liability for the remainder of the Service Term set forth in the Quotation Form of the particular Services. In the event that Customer wishes to terminate Services under these Terms and Conditions prior to the end of the Term, Customer may send notices to Stratos in accordance with the "Notices" provision of these Terms and Conditions.
- (d) Either Stratos or Customer may terminate these Terms and Conditions by written notice to the other within twenty (20) days after occurrence of any of the following events:
- a. Inmarsat relocates, repositions or replaces any satellite via which the Services are provided, where this has a material adverse affect on the Services;
 - b.
